

# Etihad expands fleet with 787-10 Dreamliner

One of four Boeing 787 Dreamliners set to be delivered this year

[Etihad Airways](#) has welcomed the latest addition to its expanding fleet with a 787-10 Dreamliner.

“The arrival of our latest 787 Dreamliner underlines our passion to grow this year by enhancing the quality of our customer experience and the reach of our network,” said Antonoaldo Neves, Chief Executive Officer, Etihad Airways. “This is all part of our vision 2030, supporting our growth as underlined by the new destinations to Osaka, Copenhagen and Dusseldorf.”

The aircraft, and the three Dreamliner 787-9s following shortly, are up to 25 percent more fuel efficient than comparable aircraft.

The new aircraft landing in Abu Dhabi, on October 13, was exactly three years to the day since Etihad received its last 787-10 on October 13, 2020.
