

Gameway Ultra opens lounge location at JFK Terminal 5

Gameway grand opening at JFK Terminal 5

[Gameway](#) has opened a location in John F. Kennedy International Airport's ([JFK](#)) Terminal 5, its second location at JFK and tenth nationwide. The grand opening event blended aviation and pop culture with celebrity guest appearances by Optimus Prime, Wolverine and Jinx.

Positioned within JetBlue's flagship terminal, the new lounge advances Gameway's mission to make airport time genuinely enjoyable. Travelers will find Xbox, PlayStation, PC and retro stations, plus snacks and drinks, all within a modern social space designed for both seasoned gamers and casual players to play, relax, or compete before boarding. Gameway is the original premium video game lounge concept for airports. Travelers get their own gaming station and can choose from current-gen consoles and gaming PCs, with 4K displays, premium headphones, high-speed Wi-Fi, charging ports and a library of iconic gaming titles, along with snacks, drinks and alcohol. Sessions are designed around passengers' flight schedules, allowing guests to drop in for a quick match or settle in for a longer campaign.

"Gameway asks, why wait, when you can game?" said Emma Walbridge, Co-Founder of Gameway. "We are thrilled to partner with [JetBlue](#), Hudson/Avolta, and [Fraport USA](#), to welcome summertime travelers with the grand opening of Gameway Ultra in JFK. This is our second location in New York, and our aim is to enhance the traveler's experience by offering a fun and entertaining alternative at the airport. As a minority owned business, I am also extremely grateful to Fraport USA and JetBlue for giving us the opportunity to bring the Gameway experience to Terminal 5."

"We are excited to welcome Gameway to JFK T5, a fantastic addition that truly enhances the customer experience," said Jose Cuevas, Vice-President, Fraport New York. "This innovative concept gives customers a chance to unwind and enjoy premium gaming in a comfortable, modern

environment. As the T5 refresh continues, Gameway reflects the kind of unique, high-quality offerings we're proud to bring Terminal 5 customers. It's fun, immersive, and exactly the kind of fresh energy we're building here at JFK."

As the only video gaming lounge in U.S. airports, Gameway has earned consistent recognition from travelers and the aviation industry. The newly opened JFK Terminal 5 Gameway Ultra is now available to ticketed passengers daily from 4 a.m. to 10 p.m.
