
Kaelis introduces headphones for Air Europa

By **Rachel Debling** on March, 22 2018 | Amenities & Comfort

[Air Europa](#) is providing a heightened inflight entertainment experience to their Business Class passengers with the introduction of noise-cancelling headphones designed and provided by [Kaelis](#).

The headphones feature removable ear cuff made of ABS and high-tech foam to create a seal around the ears. In addition to being lightweight, they have a 1.5m cable length and speakers 40mm in diameter.

For more information, visit Kaelis at [WTCE](#), stand 4E11.
