

Kaelis showcases innovation at IFSA Global EXPO

The Kaelis booth highlighted the company's capabilities, including its tableware concepts

[Kaelis](#) highlighted its latest inflight innovations at IFSA Global EXPO, presenting advancements in sustainability and design, drawing steady engagement to its booth throughout the event.

The booth featured new product developments and exclusive collaborations, including co-branded amenity kits and tableware concepts created for [Icelandair](#) and [Iberia](#), as well as the Hajj amenity kit for [Qatar Airways](#) which was shortlisted for the IFSA Awards, reinforcing Kaelis' position as a leader in onboard solutions.

The booth was built in partnership with Travelite, reflecting Kaelis' strong focus on collaboration. Beyond the exhibition floor, Kaelis contributes to the wider industry dialogue. Regional Director Ashley Kerber serves on the IFSA Innovation Team and presented at the Inflight & InStyle forum. Chief Design Officer Manoj Pridhanani moderated a session that drew more than 200 delegates to the conference hall at the Long Beach Convention Center.

Kaelis also held strategic meetings with airline partners during the show, addressing current projects and exploring future opportunities.
