gategroup receives EcoVadis Bronze rating

gategroup has announced that in November 2025 it was awarded the Bronze rating by EcoVadis. In the 12 months since the previous assessment, the caterer improved its consolidated score from 64 to 68 (out of a possible 100 points), placing it among the top 35 percent of all companies and top eight percent of food and beverage service organizations assessed by EcoVadis in the past 12 months.

Building on its ESG developments from the previous year, thanks to consistent efforts in alignment with the group's global People-Planet-Product framework and increased coverage of ESG practices across its network of locations and advanced transparency, gategroup received higher ratings across all four categories in focus: Environment, Labor & Human Rights, Sustainable Procurement and Ethics. Its Sustainable Procurement score ranks in the top three percent of companies within the industry, while its efforts in Ethics place gategroup in the top five percent. These distinctions underscore the company's commitment to leading in these critical areas.

"At gategroup, we believe that the seamless integration of sustainability into the business activities is imperative for our long-term success. We are very happy to see external recognition for our work. Our focus is on maintaining the set course to create a positive impact", said Yulia Bolotina, Global Head of ESG at gategroup.
