

# Bucher delivers interior monuments and branding elements to Malaysia Airlines

Bucher's interior monuments and branding elements for Malaysia Airlines

[Bucher](#) has announced the delivery and integration of interior monuments for [Malaysia Airlines](#)' new A330-900. The solutions feature branding elements, Bucher's eight galley monuments, five stowages, and a self-service counter for Business Class passengers.

A passenger-facing, illuminated branding feature with an aluminum finish and a warm backlighting will also create a visually appealing environment for passengers and highlights the brand identity of Malaysia Airlines.

“As a leading innovator in Galley design and manufacturing, Bucher streamlines the integration process, ensuring an effortless customer journey. Our partnership with Malaysia Airlines underscores our dedication to elevating passenger experience and embracing sustainability. Crafted in Switzerland, these elements reflect Bucher’s commitment to quality and innovation,” Bucher Group said via LinkedIn.

As the chosen Buyer Furnished Equipment (BFE) partner, Bucher said in its press release that it is proud to help Malaysia Airlines realize its presence onboard with bespoke monuments that blend aesthetic appeal and functional efficiency.

Bucher Group also congratulated Malaysia Airlines on the inaugural flight of its new A330-900 from Kuala Lumpur ([KUL](#)) to Melbourne ([MEL](#)).
