

ITW Envopak to introduce latest security seal at IFSA Global EXPO

ITW Envopak's Mini Uno security seal

[ITW Envopak](#) has revealed it will display a new seal at [IFSA Global EXPO](#) next month. The supplier of tamper-evident security seals and reusable security bags for global inflight operations is exhibiting at Booth 458.

"Our seals are trusted to secure carts and boxes on more than 6,000 aircraft daily," the company said in its press release. "ITW's philosophy is to work with customers to develop solutions to their pain points and, in doing so, we have created a range of products designed to meet the needs of the airline market."

At the expo in Long Beach, taking place from September 9 to 11, ITW will be introducing its latest security seal, the Mini Uno, a smaller version of the popular Uno Seal. Made from 100 percent recycled material, the Mini Uno offers a 41 percent reduction in plastic used and a 66 percent increase in the number of seals per pallet, offering both shipping and storage cost savings.
