

Costa Coffee brings brews onboard all easyJet flights

Gennaro Pelliccia, Costa Coffee's Master of Coffee

[Costa Coffee](#) has launched across [easyJet](#)'s network, bringing a new inflight drinks range from the "Nation's Favourite Coffee Shop" onboard all of the airline's flights

All easyJet passengers can now enjoy selected Costa Coffee drinks across all 1,184 easyJet routes to 170 destinations in 35 countries.

To celebrate the launch, Costa Coffee's Master of Coffee, Gennaro Pelliccia, surprised holidaymakers onboard an easyJet flight from London Gatwick ([LGW](#)) to Rome with a special coffee experience at 30,000 feet.

Passengers were treated to complimentary goodie bags and a selection of beverages from Costa Coffee's newly launched inflight range, from a Salted Caramel Latte to a frothy Cappuccino, which has been developed in collaboration with easyJet.

Pelliccia shared his secrets and stories behind crafting the perfect cup of Costa Coffee with passengers onboard.

"It was an absolute pleasure to bring the Costa Coffee experience to life in the sky. Sharing a perfect cup of coffee with passengers as they embarked on their trip to Rome was a dream come true. Our Italian heritage continues to inspire us every day to reimagine new coffee experiences for coffee fans all around the world. Collaborating with easyJet allows us to make every journey – even in the air – just that little bit more special," said Pelliccia.

Russell Brateman, In Flight Retail Director for easyJet, said: "We are always looking for ways to

enhance the onboard experience for our millions of customers and bring them more of the choices they want when they fly with us, so we are delighted to launch this new range with Costa Coffee onboard all our flights, which makes a fantastic addition to our popular EAT DRINK range onboard.”
